

Miscellaneous Policies

Hyperlinking Policy

We do not object to you linking directly to the information that is hosted on the Open Government Data Platform India (<http://data.gov.in>) and no prior permission is required for the same. However, we would like you to inform us (using the Contact Us option) about any links provided to our site.

We do not permit our pages to be loaded into frames on your site. The pages must load into a newly opened browser window of the user. Please visit Link to Us page for more details.

Content Review Policy (CRP)

Content Review Policy(CRP) Open Government Data Platform - data.gov.in has a very robust policy of review its content through routine testing of web pages and the content. Since this is a platform which boasts of datasets and catalogue, the Project Management Unit (PMU) is frequently in the process of updating and reviewing the datasets and catalog in order to provide up to date datasets to its users. The feedback and engagement policy with the users itself provides an effective measure of review and check towards the content on the platform. Monitoring of Platform is done on regular basis.

Privacy Policy

Your privacy is important to us.

Anyone can generally visit the site without revealing Personal Information unless he chooses to provide such information.

We collect and store the following information about user visits for statistical purpose

The internet domain of users services provider and IP address from which user access our website.

The type of browser and operating system used to access our site.

Date and time user accessed our site.

The pages/URLs visited

If the visitor reached this website from another website, the address of that referring website.

We make no attempt to link these addresses with the identity of individuals visiting our site unless an attempt to damage the site has been detected.

Personal Information

If the Open Government Data Platform India requests you to provide personal information, you will be informed for the particular purposes for which the information is gathered and adequate security

measures will be taken to protect your personal information. There are some optional uses of the portal (<http://data.gov.in>) that require a user account. They include participation in Communities; commenting on blogs, datasets; giving feedback and suggesting datasets. If you choose to use these options, you need to login with your user account. We do not sell or share any personal information volunteered on the Open Government Data Platform India to any third party (public/private). However, this information is only disclosed if the law requires it.

Copyright Policy

Material featured on this Portal may be reproduced free of charge after taking proper permission by sending a mail to us. However, the material has to be reproduced accurately and not to be used in a derogatory manner or in a misleading context. Wherever the material is being published or issued to others, the source must be prominently acknowledged. However, the permission to reproduce this material shall not extend to any material which is identified as being copyright of a third party. Authorization to reproduce such material must be obtained from the departments/copyright holders concerned.

These terms and conditions shall be governed by and construed in accordance with the Indian Laws. Any dispute arising under these terms and conditions shall be subject to the exclusive jurisdiction of the courts of India.

Content Moderation & Approval Policy(CMAP)

Open Data Government – data.gov.in is a repository of large number of datasets carefully divided into catalog. The Datasets are made available in accordance to the principles of Open Data Movement, which will allow easy access for further use and reuse in a machine-readable format. The data is derived from the huge amount of data which is collected by Government departments for administrative purposes.

Government Ministries/Departments Chief Data Officer and Contributors from their departments, who becomes point person for Data sourcing, following which the data contributed by the CDO is published on the Platform after moderation.

Content management goes through three tier process which includes data moderation, content moderation and engagement with the larger user base or public taking into account their feedbacks and requirements.

This platform provides users with important datasets from various government departments. The moderation process is confined to formatting and ensuring that the datasets are made available in concurrence with the principles of Open Government Data, where no compromise or addition is made to the original values of the datasets which are provided by the data owners. The process of making the datasets into Open format forms the base for standardization in Data Portal.

Besides data publication, the platform also boasts of content matter which supports datasets and gives an overview of the initiatives which are taken to make this platform more accessible and popular through community engagement and various other events. The content matter is contributed by the Project Management Unit (PMU) of the platform and moderated before being published on the platform.

The platform has a well laid out moderation and management process which involves moderation of feedback by the PMU Admin followed by publication of the feedbacks and views. Public can ask for to contribute datasets, which after moderation can be published based on the demand.
